KELEN SAVED THE DAY!

TEON BLAKE JR

THERE WAS THIS KID NAMED KELEN from outer space, he loved to help people and watch the kids play on earth. One day Kelen was flying around his spaceship when he noticed three kids getting pushed around in Dumbo Park. The kids seemed sad and very uncomfortable. He felt very anxious in need to help. So, he landed his spaceship right in the middle of a baseball field. He thought to himself and decided to go over to the park and help. He put on his cool neon green glasses to disguise himself. When he reached the park, everyone stared at him because he looked so dominate and cool. While all the kids ran up to him, he kept his eyes on the bullies.

"Hey guys didn't we all learn to keep our hands to ourselves and be kind to others?" Kelen said.

The bullies were startled by the sound of his strong voice and had nothing to say. Kelen reached out to the kids that were getting bullied and said:

"Hey want to play at the park with me?"

Happily, the kids excitedly said "yes!"

The bullies were disappointed and wanted to play too. In a sad voice they asked, "Why don't you want to play with us?"

Walking away, Kelen replied, "Because you guys were bullying these kids and that was not nice."

He gave them a chance by telling them if they apologized everyone could play nicely on his spaceship. The bullies agreed. From that day on they stopped being mean. Kelen was very happy with himself that he got to help out, he returned to space feeling like a superhero who saved the day. Now, the kids were more friendly with each other on the playground as he watched the earth.
